Hard skills:

HTML5 CSS3 JavaScript ES6/7 jQuery Gulp Adobe Photoshop
Flexbox BEM Git/GitHub Grid layout Bootstrap Scss/Less
Avocode/Figma NPM

Ukrainian - Native

Russian - Native

English - Middle

Additional Information

I am constantly learning new relevant technologies, tools and how to apply them in practice. It is important for me to be able to improve my knowledge and skills in the work process. In the short term, I want to develop as a front-end developer in Vue.js and raise my level of English to spoken. I am calm about criticism, I know how to justify my decisions, I do not give up the case halfway and I bring it to the end. I also have my own developments that speed up my work.
